

Wednesday 9 Hole General League Information

Wednesday 9 hole events will be administered as follows. The league chairmen do reserve the right to modify these if unusual circumstances warrant it.

Flights for events will be assigned as follows:

Flighted events will have 1 flight if the number of players or teams is 18 or less. 2 flights if the number of players or teams is 19-36. 3 flights if 37-54. 4 flights if 55 thru 72. 5 flights if 73 thru 90. 6 flights if above 90. Progressive Skins will have 2 flights – net skins and gross skins. Flight size may vary slightly due to handicap ties or an irregular number of players in a flight. League chair may modify this to accommodate unusual circumstances.

Money Payouts for Regular events as follows:

The league chair has determined the amount of money each event will pay out. Regular event payouts will be in gift certificate money (chits) in the golf shop. The total payout for the event will be split evenly over each flight. Within the flights of events, the payout will be 50% for first, 30% for second and 20% for third except for Quota Points which will pay every player who EXCEEDS (not equals) their quota. **Match play events will award** chit payouts to the winners of each regular round (excluding “play in” rounds). The league chair may modify this to accommodate unusual circumstances.

Fox Cup Championship (FCC) Qualification points

FCC points will be awarded at 50 points per flight for individual events, 100 points per flight for 2-man events and 200 points per flight for 4-man team events. Within flights, the points will be awarded at 50% for first, 30% for second, and 20% for third except for Quota Points events which will award FCC points to all players who EXCEED (not equal) their quota. **Match play events will award** chit payouts to the winners of each regular round (excluding “play in” rounds). The league chair may modify this to accommodate unusual circumstances.

Progressive and Giants skins games: If they are an official event, FCC points will be awarded based on low net scores within flights and NOT on the number or amount of skins won.

Calculating your 9-Hole handicap

The USGA method for calculating a course handicap for a 9 hole event – and the method we use – is as follows: Take your handicap index and multiply by the slope for the 9-hole course you are playing (see those slopes listed below). Divide that number by 113 and divide that result by 2. Round the result up if .5 or higher, round down if under .5. If you're handicap index is a 6.0 and you are playing the Front 9 from the white tees the calculation would be $6.0 \times 125 = 750$. Divide by 113 = 6.6371. Divide by 2 = 3.318. So your handicap for the event would be 3.
